

W. Annunzio & Comparison
1 - Memo to Policy

23 July 1985

MEMORANDUM FOR THE RECORD

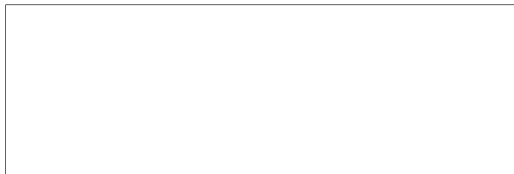

D/PERS requested that we provide ^{H(11)} ~~them~~ with:

- (a) Some examples (current preferred) of CIARDS retiree cases at different grade levels and years of service with comparisons of annuities computed under current CIARDS and the formulas we are proposing in our retirement plan.
- (b) Workups of the average Federal service and overseas service for selected categories (Ops Officers, Other "D" service cases, Commo Officers, Average CIARDS retirees).

D/PERS said that at the DCI's morning meeting of 7/23/85 an SIS-4 with lots of government service and lots of overseas service under CIARDS questioned the rationale for our proposed 75% cap of annuities under CIARDS. Whether the question was pro or con was not clear.

D/PERS apparently clarified the rationale question (i.e. the proposed 2.5% for all overseas service) but feels the question may indicate an issue in the making since CIARDS retirees at high grades with extensive government and overseas service will probably hit the 75% cap with relatively low years of service.

STAT

STAT

Note: On 7/24/85 with actual case data provided by  Kathy developed the comparison retiree cases (attached).

As regards to item A above, I prepared the response (attached) based on computer report of 12/5/84 for FY-1984.

STAT

Since other slightly conflicting data for FY 1984 was found in other computer runs in the files,  agreed we would use the 12/5/84 report data. Copies of these references are attached to Cynthia's file copy.

George gave D/PERS the responses on 24 July. No further questions to date from D/PERS.

24 JUL 1985

Average Federal Service & Overseas Service
for Selected Categories of CIARDS Retirees in FY-1984

<u>Category</u>	<u>Years of Federal Service</u>	<u>Years of Overseas Service</u>
Ops Officer	31.2	9
Other "D" Careerists	29.3	8.5
Commo	30	10.7
Support Careerists (MG & M)	31.1	9
Average of All CIARDS Retirees	30.4	7.9

COMPARISONS OF ANNUITIES FOR CIARDS RETIREES
COMPUTED UNDER CURRENT CIARDS & PROPOSED FORMULAS

Employee with 38 Years of Service & High-3 of \$63,512 - SIS-4

	<u>CIARDS</u> <u>(Basic Annuity)</u>	<u>% of</u> <u>High-3</u>
Current (2% of Average High-3 Salary x # Years of Service Not to Exceed 35 Years of Service Credit; i.e., 70% of Average High-3)	\$44,458 (capped)	70.0%

Proposed
(2 1/2% of Average High-3 Salary x Years
of Overseas Service, plus 2% of All Non-
Overseas Service Not to Exceed 75.0% of
Average High-3)

5 Years Overseas	\$47,634 (capped)	75.0%
8 Years Overseas	\$47,634 (capped)	75.0%
12 Years Overseas	\$47,634 (capped)	75.0%
20 Years Overseas	\$47,634 (capped)	75.0%

COMPARISONS OF ANNUITIES FOR CIARDS RETIREES
COMPUTED UNDER CURRENT CIARDS & PROPOSED FORMULAS

Employee with 34 Years of Service & High-3 of \$62,794 - SIS-3A
